

Sussex County, Delaware

REQUEST FOR ENGINEERING SERVICES

The Sussex County Council is hereby soliciting statements of qualifications and experience from firms to provide professional environmental as well as engineering services for development of environmental remediation projects and programmatic assistance in setting up storm water management districts and/or stormwater management banking in the Inland Bays and the Sussex County portion of the Chesapeake Bay watersheds. The scope of services will include but is not limited to:

Survey, planning, drafting Code for programmatic governance, environmental assessment and remediation, science based development of nutrient loading baselines, engineering design of water quality as well as runoff reduction projects, construction management assistance and other services as needed.

Sussex County shall determine that all firms meet the minimum qualifications, based upon items addressed in the proposals that are received, consisting of the following criteria:

- Experience and reputation
- Expertise
- Capacity to meet requirements (size, financial condition, etc)
- Location (geographical)
- Demonstrated ability
- Familiarity with public work and its requirements

In addition to the above, other criteria necessary for a quality, cost-effective project may be utilized. At least one (1) of the qualified firms shall be interviewed and negotiate for services at compensation which the agency determines is fair and reasonable.

Interested parties may obtain an information package by contacting Kaycee Widen at (302) 855-7718. Parties shall submit information as specified in the information package to Engineering Administration, Sussex County Engineering Department, 2 The Circle, P.O. Box 589, Georgetown, Delaware 19947, before 4:30 p.m. on Friday, June 8, 2018. Further information may be obtained by contacting Mr. Hans Medlarz, P.E., Sussex County Engineer at (302) 855-7718.

By: Hans Medlarz, P.E.
County Engineer
